

CHRISTOPHOROS ANTHOULAKIS

SENIOR FULL STACK WEB DEVELOPER

Developer with 5+ years of experience in full-stack web development, system design, and data-driven applications. Currently focused on building AI-powered solutions, including RAG systems and end-to-end LLM integrations. Willing to learn and continuously improve, eager for challenges with strong performance under pressure. Creative, friendly and cooperative, with excellent communication and organizational skills.

WORK EXPERIENCE

SENIOR ASSOCIATE SOLUTIONS ENGINEER

Company: Pfizer

Location: Thessaloniki

Dates: 07/2023 – Now

- Led the design and development of scalable internal platforms, translating complex business workflows into production-ready systems
- Drove backend architecture using Python (FastAPI), making key decisions around APIs, data models, and system integrations
- Took full ownership of technical planning, system design, and delivery across multiple initiatives
- Acted as a bridge between business and engineering, ensuring alignment on requirements and technical feasibility
- Mentored engineers and contributed to team growth through knowledge sharing and code reviews
- Played an active role in Agile processes, including sprint planning and backlog prioritization
- Contributed to system reliability, security, and performance optimization in enterprise-grade environments

WORK EXPERIENCE

FULL STACK WEB DEVELOPER

Location: Soundstar / Thessaloniki

Dates: 09/2021 – 08/2022

- Developed and customized WooCommerce e-shops with focus on performance and UX
- Built custom WordPress plugins/themes and modified existing ones using PHP, JavaScript, and CSS
- Integrated payment gateways and third-party plugins
- Optimized website performance, loading speed, and SEO structure
- Provided end-to-end solutions from backend logic to frontend UI

WEB & GRAPHICS DESIGNER

Location: Soundstar / Thessaloniki

Dates: 09/2021 – 08/2022

- Designed and developed responsive web pages and UI components for educational platforms
- Created visual assets (banners, graphics, layouts) aligned with brand guidelines
- Improved user experience through layout optimization and usability-focused design
- Maintained consistency across digital products and marketing materials

AI & MACHINE LEARNING

- Retrieval-Augmented Generation (RAG) systems
- LLM integrations (API-based: Gemini / OpenAI / Claude-like models)
- Prompt engineering & evaluation workflows
- Embedding pipelines, chunking strategies, reranking concepts
- Computer Vision basics (OpenCV, U²-Net)
- Frameworks & Libraries: PyTorch, TensorFlow, Pandas

FRONTEND DEVELOPEMENT

- JavaScript, TypeScript
- React, Vue, Angular
- HTML5, CSS3, Bootstrap, Tailwind
- UI/UX implementation & responsive design

BACKEND DEVELOPEMENT

- PHP (Laravel), Python (FastAPI, Flask, Django), Java (Spring Boot)
- REST API design & integration
- Authentication flows, business logic, data processing

DATA & ANALYTICS

- Tableau
- Data analysis workflows (Pandas, SQL)

DATABASES & SEARCH

- SQL, PL/SQL
- MySQL, PostgreSQL / relational databases
- MongoDB / non-relational databases
- ElasticSearch (search & indexing concepts)

DEVOPS & INFRASTRUCTURE

- Linux administration
- Docker
- Git, GitHub, GitHub Actions (CI/CD basics)
- Bash scripting
- Web server & deployment experience

MOBILE DEVELOPEMENT

- Flutter (cross-platform apps)
- Android (Java / Kotlin)

PRODUCT DESIGN & TOOLS

- Figma (UI/UX design & prototyping)
- Photoshop
- Elementor, PrestaShop (CMS / e-commerce systems)

CERTIFICATIONS

- CSM (Certified Scrum Master)
- CSPO (Certified Product Owner)
- Six Sigma Yellow Belt
- Six Sigma Green Belt
